INTERNATIONAL YOGA DAY 2023

Editor's Vocal:

This is 2023, First batch of EWSA is graduating. It was memorable journey from 2018 to 2023. As a teacher I have this feeling of pride and emotions. Happy to see students graduating and going to start a new path of their life.

"Dear students, I don't have any doubts that you will all do well in life. I have taught you well and with hard work, diligence and commitment I believe you will reach the top. Wish you good luck & I love you all."

Ar. Chandan kumar Rajak (Dean, Academics)

Cover Story :

A Farewell is an expression of good wishes at a parting. Farewell addresses both the happiness and the sadness one feels on the last days of schools and colleges. Goodbyes are always harder than hellos.

A get together was organized for the graduating students filled with fun, laughter and memories. EWSA congratulated and wished good luck to their first batch of graduating students.

YOGA : LEARN - PRACTICE - HEALTH

THE INTERNATIONAL DAY OF YOGA HAS BEEN CELEBRATED ACROSS THE WORLD ANNUALLY ON JUNE 21 SINCE 2015, FOLLOWING ITS INCEPTION IN THE UNITED NATIONS GENERAL ASSEMBLY IN 2014. YOGA IS A PHYSICAL, MENTAL AND SPIRITUAL PRACTICE WHICH ORIGINATED IN ANCIENT INDIA.

EWSA ORGANIZED THE THE INTERNATIONAL YOGA DAY WITH GREAT ENTHUSIASM FOR THE STUDENTS AND STAFF. THE SESSION INCLUDED PRAYER FOLLOWED BY PRACTICING OF VARIOUS ASANAS, MEDITATION AND OM KAR ENDED WITH A PLEDGE.

YOGA DAY CELEBRATED AT EWSA

STUDY TOUR

STUDY TOUR: SIGNIFICANCE - ARCHITECTURE – MOTIVATE

STUDY TOURS ARE A QUINTESSENTIAL PART OF ARCHITECTURE COURSE CURRICULUM. AN EDUCATIONAL TOUR TO LUCKNOW-KHAJURAHO-BHOPAL WAS CONDUCTED TO EXPERIENCE AND UNDERSTAND THE HINDU, JAIN AND MUGHAL ARCHITECTURE IN INDIA. UNDER THE GUIDANCE OF FACULTY, CHANDAN KUMAR, THE DIVERSE CULTURE ALONG WITH ARCHITECTURAL VALUES AND RICH HERITAGE WAS EXPERIENCED BY THE STUDENTS OF 6TH SEMESTER AT EWSA.

MP, UP STUDY TOUR

FUTURE STUDY OPTIONS: ARCHITECTURE- STUDY –CAREER

STUDYING INTERNATIONALLY OFFERS A WIDER VARIETY OF COURSES. THIS HELPS EXPAND HORIZONS AND OPENS UP A WORLD OF NEW EDUCATIONAL OPPORTUNITIES.

A SEMINAR BY SIEC EDUCATION PRIVATE LIMITED WAS ORGANIZED BY EWSA FOR THE 7TH & 9TH SEMESTER STUDENTS TO HELP THEM PLAN THEIR HIGHER STUDIES ABROAD. THE SPEAKER DISCUSSED VARIOUS POSSIBLE COUNTRY OPTIONS, AVAILABLE COURSES, JOB OPPORTUNITIES, STAY BACK OPTIONS, RELEVANT TEST & EXAMS AND PREPARATION FOR THE SAME. PORTFOLIO MAKING AND PROFESSIONAL CAREER GUIDANCE WORKSHOP:

WORKSHOP OUTPUT FROM STUDENTS

Future Study Options:
Architecture- Study –Career

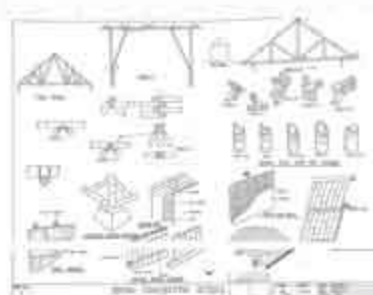

INSIGHT- PROFESSION –CAREER

INSIGHT- PROFESSION –CAREER

'CHOOSE THE RIGHT CAREER PATH AND YOUR LIFE WILL BE SORTED!'. CHOOSING THE RIGHT CAREER PATH CAN BE A BREAKTHROUGH POINT FOR STUDENTS IF DONE RIGHT. STARTING A CAREER IN ARCHITECTURE AND PLANNING IS AN EXCITING PROSPECT, BUT IT IS IMPORTANT TO RESEARCH BEFORE TAKING THE PLUNGE. A WORKSHOP BY LOMOS WAS ORGANIZED BY EWSA FOR THE 7TH & 9TH SEMESTER STUDENTS TO FOCUS ON PORTFOLIO CREATION AND PROFESSIONAL CAREER GUIDANCE IN THE FIELD OF ARCHITECTURE.

CARRIER EXPOSURE PRESENTATION AT EWSA

STUDIO:

Studios enable the students to experience each of these courses and develop affection for them.

Great designs could be achieved by keeping the simple principles in mind.

The architectural thesis is an opportunity to demonstrate the skills the students have learnt and the knowledge they have developed over the course of their studies.

BEYOND :

Sports enhance the personality of individuals by imparting various traits in them. They are said to boost alertness, discipline, team spirit, mental ability, confidence and concentration of a student. It doesn't matter what kind of sports the students are playing and whether they are winning or not. Students of EWSA actively participated in Inter College sports competition held by SJB School of Architecture and RNSIT

HUMANITY STANDING AT THE CROSS ROADS...

As we celebrate World Environment day, humanity is standing at crossroad and staring at the challenges ahead. Being at the apex of the evolution pyramid, it is the sole responsibility of Humanity not only to protect its species but also to embrace other species (Flora and Fauna) because of which ecosystem thrives. The various challenges that we are staring are as wide as it can be, from Migration to Urbanization, Development to deforestation, Population to extinction. The issues are being addressed at various levels from Global to local level. The most discussed topic in recent times at global level across various countries is "Climate change".

The construction industry is one of the significant contributors to the carbon emissions and hence to "Climate Change". On one side to meet the demand of the growing population, the supporting infrastructure development is inevitable. Architects play a vital role in striking the right balance between both keeping the ecological aspect intact. The governments at various levels are making an attempt to decentralise the Metro population (to avoid migration and strengthen tier 2 and tier 3 cities) through policy interventions. This development needs to be backed by right kind of buildings and infrastructure with very less negative impact on Environment. As architects we understand that 'Wants' are becoming the new age 'Needs'.

The contribution of architects to society ranges from smallest building material to the urban planning. Today a lot of thought goes into designing passive buildings, adaptive reuse of old buildings, making cities greener and all age friendly. Rapid Urbanisation and industrialization has caused serious damage to the environment. This alarm has pushed us to rethink from the basic construction material to larger urban level. Some of the recent developments indicate that new construction materials are emerging to replace the current materials with very less carbon emissions and are prepared out of agricultural waste. It becomes important for us to revisit the past for better future. The old buildings no doubt served the very purpose for which they were constructed but also were very much eco-friendly. A look back into the past (When entire life style was a sustainable one) has the clue towards a better future. *On this World Environment day as Architects we hope more and more of this kind of research and developments happen at all levels that make positive impact on the environment.* Beyond architecture it is important to understand that the sustainable development is a result of sustainable life style.

MENTOR INKS

Sustainable
development

is the only way forward to keep up the hope of "making the place a better to live for coming generations".

SCREW THE BRAINS.....

"MODERN ARCHITECTURALS"

FIND MINIMUM 10 ARCHITECTURAL RELATED WORDS HIDDEN IN ABOVE PHRASE!

"GRILL 'N' DRILL".....NAME ME!!!

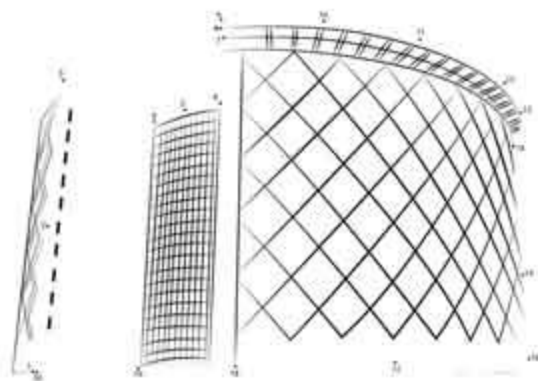

1. TYRADRUOC
